

Uploads Exercise

Submitted by: Bruno Angelo Medeiros

Member country/region: BRAZIL

PROJECT DESCRIPTION

You were hired to insert photos for the autos in the previous exercises.

INSTRUCTION TO COMPETITOR

You need to change the forms adding the file input to insert a photo in the cars. For that it's necessary to modify the database to support the new input. And after that, modify the PHP to create a function to upload the files.

You can use the internet to download car's images.
